4 10 TIPS FOR BUSINESS TRAVEL

Task 1: Read the article, then answer the questions on the following page.

1. Fly with the same airline whenever possible. Using the same airline means you'll typically depart from and arrive at the same terminal, so you'll know your way around. That makes parking, checking in and getting to the departure lounge a lot easier. Plus, as a great perk, you'll receive a lot of frequent flyer miles!

2. Keep a separate set of toiletries you only use for business travel. Have you ever arrived at your destination, only to realise that you forgot your toothpaste? The best way to make sure that doesn't happen is to keep a separate set just for travel.

3. Dress to get past security. Security will ask you to remove your belt, shoes and anything metal. Speed up this process by wearing slip-on shoes, avoiding metal accessories and keeping your belt in your carry-on luggage until you reach your destination.

4. Keep your phone and laptop charged. Keep your chargers in your carry-on luggage, and if you notice the battery on either device getting low, plug them in as soon as you're near a power outlet.

5. Bring a change of clothing in your carry-on bag. Fellow travellers and turbulence often cause spills and stains. Even if you're only going on a short trip, be sure to have a change of clothing in your carry-on bag in case of emergencies.

6. Check in online. Reduce your travel time by checking in online. It's quick, easy, and reduces the time you need to spend at the airport before your flight leaves.

7. Use an app to store the details of your trip. Apps like Passbook allow you to store the details of your flights, hotel and other travel arrangements on your phone for easy access.

8. Don't pack prohibited items. All airports have a list of things you can't take on an airplane because they're considered dangerous. Examples include scissors, razors, and some aerosols.

9. Use the business lounge. Regardless of how prepared and efficient you are, you'll always have to spend some time waiting at the airport. Turn long waits and delays into productive time by using the business lounge to catch up on work.

10. Be prepared for international travel. Make sure you have a valid passport and if necessary, a visa. Even if you plan to use your credit card for everything, bring some cash in the local currency for tips and small purchases. In addition, arrange your transport to and from the airport, the hotel and your meeting ahead of time. Finally, make sure you know where your country's embassy is in case you need any help while abroad.

Read the article named “Pros And Cons Of Travelling for Business” below.

1 PROS AND CONS OF BUSINESS TRAVEL

Let's begin by looking at some negative aspects of travelling for business.

Travel is Expensive: Sadly, business travel isn't cheap. It can cost a business thousands of pounds each year; therefore, it's not possible for many startups or smaller businesses. Not only do you have to consider the price of the plane ticket, but the hotel room, amenities, food and drink, travelling around the area, etc.

Travelling Can Be Stressful: From missed connections to traffic, travelling is very stressful. If the business trip is stressful it can result in the trip feeling unproductive. This demotivational emotion will reflect on the success of the trip. For example, if you arrive at a business meeting annoyed or angry at something that happened while you were travelling, it could negatively affect the meeting.

A High Level of Unproductivity: It can be difficult to manage workloads, along with regular meetings whilst travelling. From trouble with the WiFi to devices running out of battery, it's undeniable that at times you'll see a decrease in productivity while having to travel for business.

Now, let's explore the positives that come with business travel.

More Networking Opportunities - This is a huge benefit that comes with business travel. By attending business events, the business has a chance to grow. Through these events, you can connect with others within your industry as well as prospective clients and grow your business. Meeting these people face to face, will create a stronger connection – rather than connecting by email or zoom.

Meet Prospective Clients: Another key benefit of business travel is the chance to meet with your clients physically. Getting to see their premises and meet them in person, you'll get a better idea of what they need from your business.

It's a Learning Experience: A business trip gives employees an opportunity to learn more about their job. They may even return from travelling with a new love for their role. Whether this is because they had the opportunity to meet with clients, peers within the industry, or they attended a trade show / training day.
