What should I study?

Give advice to the people below on what they should study at university. Explain.

Jack

Hey everyone! I'm Jack. I love to help people and learn about science. I spend a lot of time reading and researching scientific topics, from biology to physics to chemistry. I find it really interesting to learn about the amazing things scientists are discovering every day. I like to share my knowledge with others and help people understand these concepts better. Whether it's explaining a scientific idea to a friend or volunteering at a local hospital, I love being able to use my passion for science to make a positive impact in people's lives.

Hannah

Hi! I'm Hannah. I like to learn about how businesses can help stop climate change. I think it's really important to take care of our planet, and I believe that businesses have a big role to play in this. That's why I'm interested in learning as much as I can about eco-friendly practices and how to make a positive impact on the environment. One of my biggest dreams is to start my own eco-friendly business. I want to use my knowledge and passion to make a difference and help create a better future for our planet.

© ESL Pals

What should I study?

Give advice to the people below on what they should study at university. Explain.

Paula

Hi there! My name is Paula. In my free time, I love playing with Lego and building structures. I find it really fun and relaxing to use my imagination and creativity to create different structures. I have a big collection of Lego, and I always enjoy finding new ways to use them. I love seeing how all the different pieces fit together and how I can use them to build something new. Whether it's a house or a complex tower, I always have a great time with my Lego.

Kenny

Hi everyone! My name is Kenny. I'm not sure what to study at university next year! In my free time, I love helping others and learning about the legal system. I enjoy reading about legal cases and understanding how the law can be used to protect people. I also like to use my knowledge to assist others in any way I can. Whether it's offering advice to someone who needs help with a legal issue or volunteering at a community legal center, I love using my love for the law to make a difference in people's lives.

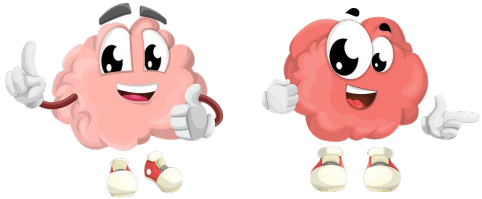
University around the world

© ESL Pals

Norway



Norway is known for its stable economy and high living standards. But did you know the country also provides excellent quality higher education taught in English? On top of that, all of the public universities in Norway offer free studies for international students.

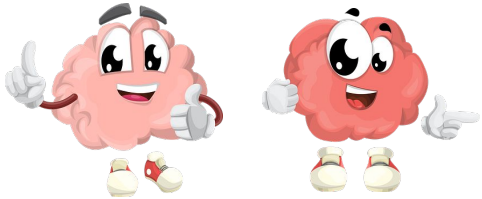
Similar to other Scandinavian countries, people in Norway speak fluent English. However, if you want to embrace their culture, universities offer a range of Norwegian language courses.

To study in Norway, you will need to accept the cold weather, but the country's natural landscapes will take your breath away and make the challenging weather conditions worth it.

Living in Norway can be quite expensive, so Norway’s study visa allows international students to work part-time alongside their studies. Student organisations will help you find housing close to your university at a great price.

© ESL Pals

Norway: True or False?



Norway offers expensive courses for international students.

or

The weather in Norway is cold but the landscapes are beautiful.

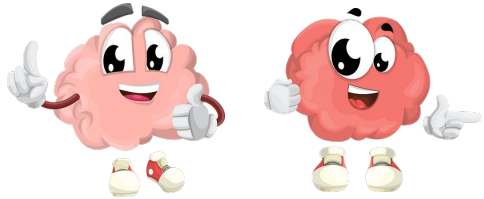
or

The study visa allows international students to work part-time.

or

© ESL Pals

Check your answers!



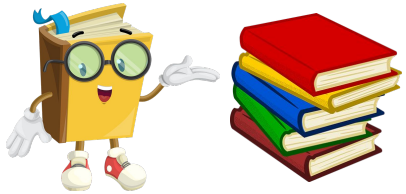
Norway offers expensive courses for international students.

The weather in Norway is cold but the landscapes are beautiful.

The study visa allows international students to work part-time.

© ESL Pals

Taiwan



Studying in Taiwan gives you access to a unique cultural experience and a vibrant international community. Taiwan's academic resources and future job opportunities have made Taiwan an attractive study destination for many foreign students.

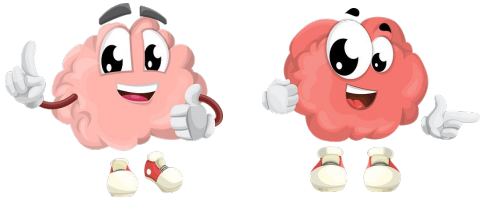
Public universities start at around 700 euros per academic year. Meanwhile, the government of Taiwan offers numerous scholarships to make the study experience even more affordable.

People in Taiwan are generally described as welcoming and friendly, making foreigners feel at home. Plus, Taiwan's rich cuisine will likely make you fall in love with the country.

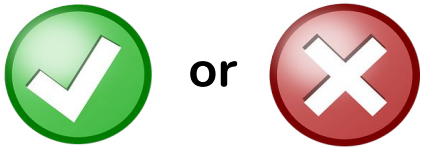
Mandarin Chinese is the official language in Taiwan. In the past few years, the advantage of knowing this language has grown in the labour market. By studying in Taiwan, you'll get a chance to learn and practice speaking Mandarin with its native speakers.

© ESL Pals

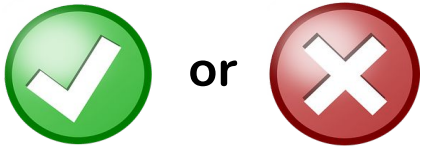
Taiwan: True or False?



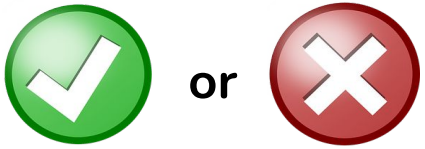
Public universities start from around 700 euros per academic year.



The people in Taiwan are friendly and the food is great.

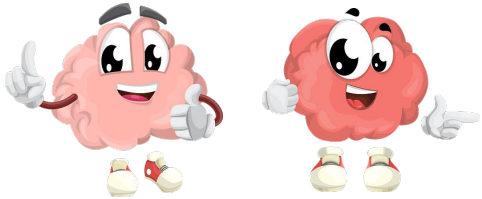


By studying in Taiwan, you'll get a chance to learn Spanish.



© ESL Pals

Check your answers!



Public universities start from around 700 euros per academic year.

The people in Taiwan are friendly and the food is great.

By studying in Taiwan, you'll get a chance to learn Spanish.

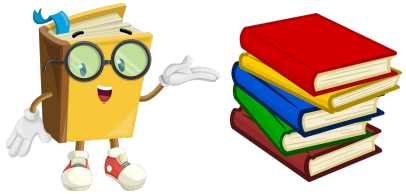
Brazil



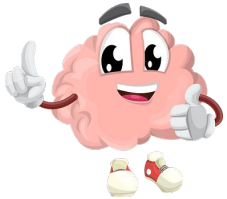
In Brazil, most federal and state universities charge no tuition fee. Plus, Brazil is the largest South American country and has many big cities with international universities where living costs begin at 630 USD/month. All of this makes Brazil an inexpensive country to study in.

Lately, the labour market in Brazil has increased the demand for international workers with a great command of English. Therefore, after your studies, you can continue to pursue your career in Rio de Janeiro, São Paulo or another international city.

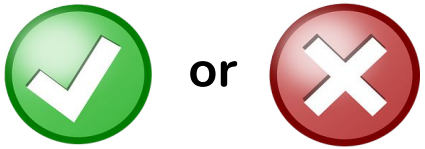
Brazil provides a study visa that expires when the studies are completed. To be able to continue working, you have to leave the country after you graduate and re-enter with a working visa. Beautiful beaches, exciting carnivals, and other festivities are just a few charming things that make studying in Brazil a lot of fun!

© ESL Pals

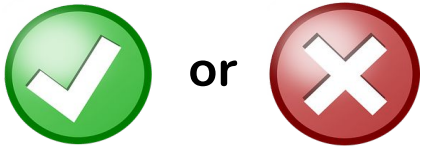
Brazil: True or False?



In Brazil, most universities are free.



You won't be able to work in Brazil when you have finished studying.



Beautiful beaches, exciting carnivals make studying in Brazil a lot of fun.

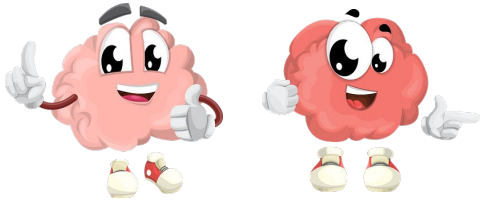
Teacher’s notes



- For this game, you need a dice. If you don’t have any - follow the link provided for an online dice roller: Dice Roller.
- The first player to reach the last tile wins.
- Move forward with the roll of the dice. Each time someone falls on a number - they must answer the corresponding question.
- Make sure that your students say as much as possible and use full sentences! Enjoy!
