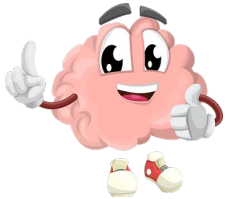
In the kitchen



I like my kitchen a lot. It's an important part of my home. In one corner, there is a big fridge. I keep my food in there, and I can find yummy snacks too.

Next to it is my stove. I cook lots of different things on it, like soups and eggs. The microwave is on the counter. It helps me make quick meals or warm food again.

I have a special pot I use for cooking, and a kettle for making hot water, especially in the morning for my tea. I like that whistling sound it makes when the water is ready.

My kitchen has cupboards with plates and cooking things. They help me keep everything organized. Inside them, I have spices, pots, and pans. They are always ready when I want to cook something special.

My kitchen is not just a room. It's where I make delicious food and drinks. I have a fridge, stove, microwave, pot, kettle, and cupboards that help me every day.
